A Unique Way For Vendors To Connect With Buyers in 2020

"Virtual stalls" let vendors add their business name, logo, description, short bio, website and social links, special offer and call-to-action button. Each stall has the option to display a large YouTube, Vimeo, Google Slide document or even stream a webcam live, just like Zoom so they can interact with customers who visit their stall!

*"The launch of the **Irish Virtual Christmas Market** is a fantastic opportunity for traders to reach out and showcase their work and businesses. It's also a unique opportunity for shoppers to meet the makers virtually and support home grown talent from the comfort of their own home."*

Flicker Soy Candles

*"The **Irish Virtual Christmas Market** is an excellent opportunity for artists and traders to reach out and showcase their work and businesses via virtual stalls, providing a fantastic opportunity for shoppers to meet with and engage with creative talents behind each business and a great chance to support local Irish talent"*
